Star Group, L.P. Reports Fiscal 2022 Third Quarter Results

STAMFORD, Conn., Aug. 03, 2022 (GLOBE NEWSWIRE) -- Star Group, L.P. (the "Company" or "Star") (NYSE:SGU), a home energy distributor and services provider, today announced financial results for the fiscal 2022 third quarter and nine months ended June 30, 2022.

Three Months Ended June 30, 2022 Compared to the Three Months Ended June 30, 2021

For the fiscal 2022 third quarter, Star reported a 55.1 percent increase in total revenue to \$439.1 million compared with \$283.1 million in the prior-year period, reflecting an increase in selling prices for all petroleum products in response to higher wholesale costs.

The volume of home heating oil and propane sold during the fiscal 2022 third quarter increased by 2.7 million gallons, or 7.3 percent, to 40.7 million gallons as the additional volume provided from acquisitions and other factors more than offset the impact from net customer attrition. Temperatures in Star's geographic areas of operation for the fiscal 2022 third quarter were similar to the fiscal 2021 third quarter and 8.0 percent warmer than normal, as reported by the National Oceanic and Atmospheric Administration.

Star's net loss decreased by \$1.5 million in the quarter, to \$10.6 million, as a favorable change in the fair value of derivative instruments of \$3.0 million more than offset an increase in the Adjusted EBITDA loss of \$1.2 million.

The Company's third quarter Adjusted EBITDA loss increased by \$1.2 million, to a loss of \$11.1 million, as higher operating expenses more than offset the impact of a 2.7 million gallon increase in home heating oil and propane volume and higher home heating oil and propane per gallon margins.

"As with last quarter, Star continued to be challenged by higher commodity prices and related expenses this period, exemplified by wholesale product costs which were nearly double those of 2021," said Jeff Woosnam, Star Group's President and Chief Executive Officer. "Temperatures were roughly the same year-over-year, and we focused on new business development, growing installation and service revenue, and preparing Star for the upcoming heating season. I'm pleased to report that we acquired one heating oil dealer in the period – adding approximately 3.8 million gallons annually to our portfolio – then, just after the quarter, we extended our credit facilities to 2027; this expanded our ability to borrow up to \$550 million for our seasonal working capital requirements. We also increased the Company's term loan to \$165 million. We believe these changes will expand and extend our financial flexibility during periods of significant product cost increases."

Nine Months Ended June 30, 2022 Compared to the Nine Months Ended June 30, 2021

For the first nine months of fiscal 2022, Star reported a 35.6 percent increase in total revenue to \$1.7 billion, reflecting an increase in selling prices in response to higher wholesale product costs, partially offset by a decrease in total volume sold.

The volume of home heating oil and propane sold during the first nine months of fiscal 2022 decreased by 8.4 million gallons, or 2.9 percent, to 276.7 million gallons, as slightly warmer temperatures, net customer attrition and other factors more than offset the impact from acquisitions. Temperatures in Star's geographic areas of operation for the first nine months of fiscal 2022 were 0.5 percent warmer than during the prior-year comparable period and 9.3 percent warmer than normal, as reported by the National Oceanic and Atmospheric Administration.

Net income decreased by \$25.7 million, to \$85.3 million, as an unfavorable change in the fair value of derivative instruments of \$18.5 million and a decrease in Adjusted EBITDA of \$14.1 million more than offset a decrease in the Company's income tax expense of \$8.1 million.

Year-to-date Adjusted EBITDA decreased by \$14.1 million, to \$141.1 million, compared to the prior-year period as a decline in home heating oil and propane volume and an increase in operating expenses more than offset an increase in home heating oil and propane per gallon margins. Operating expenses rose by \$23.9 million reflecting a \$2.3 million lower benefit recorded from the Company's weather hedge, additional costs from acquisitions of \$3.9 million and a \$17.7 million, or 6.9%, increase in expense within the base business reflecting higher credit card fees and bad debt reserves (in aggregate, \$5.7 million), higher vehicle fuel costs (\$1.3 million), and greater medical and other insurance related expenses (\$4.8 million). The remaining increase of expenses in the base business of \$5.9 million, or 2.3% was due to wage, benefit and other expense increase.

EBITDA and Adjusted EBITDA (Non-GAAP Financial Measures)

EBITDA (Earnings from continuing operations before net interest expense, income taxes, depreciation and amortization) and Adjusted EBITDA (Earnings from continuing operations before net interest expense, income taxes, depreciation and amortization, (increase) decrease in the fair value of derivatives, other income (loss), net, multiemployer pension plan withdrawal charge, gain or loss on debt redemption, goodwill impairment, and other non-cash and non-operating charges) are non-GAAP financial measures that are used as supplemental financial measures by management and external users of the Company's financial statements, such as investors, commercial banks and research analysts, to assess Star's position with regard to the following:

- compliance with certain financial covenants included in our debt agreements;
- financial performance without regard to financing methods, capital structure, income taxes or historical cost basis;

- operating performance and return on invested capital compared to those of other companies in the retail distribution of refined petroleum products, without regard to financing methods and capital structure;
- ability to generate cash sufficient to pay interest on our indebtedness and to make distributions to our partners; and
- the viability of acquisitions and capital expenditure projects and the overall rates of return of alternative investment opportunities.

The method of calculating Adjusted EBITDA may not be consistent with that of other companies, and EBITDA and Adjusted EBITDA both have limitations as analytical tools and so should not be viewed in isolation but in conjunction with measurements that are computed in accordance with GAAP. Some of the limitations of EBITDA and Adjusted EBITDA are as follows:

- EBITDA and Adjusted EBITDA do not reflect cash used for capital expenditures;
- although depreciation and amortization are non-cash charges, the assets being depreciated or amortized often will have to be replaced and EBITDA and Adjusted EBITDA do not reflect the cash requirements for such replacements;
- EBITDA and Adjusted EBITDA do not reflect changes in, or cash requirements for, working capital;
- EBITDA and Adjusted EBITDA do not reflect the cash necessary to make payments of interest or principal on indebtedness; and
- EBITDA and Adjusted EBITDA do not reflect the cash required to pay taxes.

REMINDER:

Members of Star's management team will host a webcast and conference call at 11:00 a.m. Eastern Time tomorrow, August 4, 2022.
